

HDP® Eagle Blanket Revitaliser

Rubber blanket & roller rejuvenator

Specialist rejuvenator for all printing applications and press types

Product Features

- HDP® Eagle Blanket Revitaliser is a revitalising blend of non-astringent hydrocarbons which ensure your blanket is restored to as new without plasticizers leaching from the top rubber printing surfaces.
- HDP® Eagle Blanket Revitaliser will remove all glaze caused by friction, ink and stock coatings as well as light embossing and oxidation.
- HDP® Eagle Blanket Revitaliser will restore original colour to blankets and rollers, reproducing the nap of rubber compounds, optimising ink transfer.
- Used daily or at the end of each shift, HDP® Eagle Blanket Revitaliser returns your blankets to as new condition.

Advantages of HDP® Eagle Blanket Revitaliser

- Economical in use.
- Extends working life of blankets and rollers.
- Optimises ink transfer properties of blankets and rollers.
- Fast effective deep cleansing of blankets and rollers.
- Restores original rubber texture.

Product code

KV10-OERG-#### (final 4 digits relate to pack size).

Pack size

10 litres (DTF9) and 200 litres (DTMP).

Application

Blankets: Use as a normal manual wash-up after long runs, when changing from dark to light ink and as part of a daily maintenance programme. Because of fast drying speed and outstanding cleaning action, a blanket maintenance wash actually takes less time than a regular wash.

Rollers: Outstanding for hand cleaning rubber and steel rollers out of the press and the cleaning of roller ends on the press. While HDP® Eagle Blanket Revitaliser dries too fast for most regular roller wash-ups, it may be added to a regular HDP® wash up solution to improve cleaning action and increase drying speed as part of a maintenance wash-up programme.

Rubber parts: The periodic use of HDP® Eagle Blanket Revitaliser will add new life to feeder rollers on press and on folders, suction cups and other rubber parts used in both printing and general industry.

Not recommended for use on urethane or EPDM rollers.

Flashpoint

43°C (All).

More products. Streamlined access. Greater results.

Flint Group's Print Media division offers a uniquely powerful combination of products, services and expertise; giving you access to the industry's broadest range of pressroom products.

Inks and Coatings. Pressroom Chemicals. Blankets. Sleeves. Consumables.

Rely on us for consistency, reliability and customer focus. Our aim is to make it easier for you to achieve your business goals. With Flint Group products in your pressroom, you can run your business with confidence and peace of mind.
