HDP® Superwash

Water miscible manual blanket wash

Roller and blanket wash for Sheetfed and Heatset Web presses

Product Features

- HDP® Superwash is a highly effective blend of solvents formulated to deliver strong cleaning power. Contains aromatic distillates for added performance.
- HDP® Superwash is water miscible, which means that it does not contain water but readily mixes with water to effectively remove all gum glaze and paper fibres.
- HDP® Superwash sells for less than most water miscible washes and for additional economy, it can be mixed with up to 20% water without reducing its cleaning action. This also reduces the evaporation vapours and the total volume of wash used.

Advantages of HDP® Superwash

- Low odour.
- Water miscible.
- Safe on the majority of positive and negative printing plates.
